PROFILE

Software engineer with 8+ years (2018–2026) across the full product lifecycle: NestJS/TypeScript backends, high-performance SQL (PostgreSQL, SQL Server, stored procedures), React/Next.js frontends and React Native mobile apps. I have shipped payment gateways, data-concurrency systems for 10,000+ users, extended ERPs and field apps with geolocation, in food service, education, SaaS, mining and logistics. Today I direct AI agents (Claude Code, Cursor) to design and deliver faster — the senior role is to set the course, challenge and communicate; the AI writes, the captain steers. Mentored 30+ developers into better jobs. English B1.

EXPERIENCE

Apr 2025 – present Caracas · On-site	Software Developer · Equipo Gerencial Con Solidez GCS, C.A. - Next.js + Supabase back-office deployed on Vercel with administrative workflows for internal operations. - React Native (Expo) mobile app for customers, orders, payments and pricing, with geolocation and Maps for field operations. - Configurable questionnaire module (dynamic fields) to capture business-specific data. - Maintenance and optimization of a legacy React + .NET Framework 4.5 + SQL Server app: incidents, query tuning, operational continuity; delivery coordination across legacy and new products. Next.js · Supabase · React Native · Expo · .NET · SQL Server · Vercel
Mar 2025 – May 2025 Córdoba, AR · Remote	Senior Software Engineer (contract) · QPlus Software Solutions Scalable improvements for the mining sector: server route organization, multi-language integration and real-time monitoring of mechanical changes and their profitability. C# · .NET Framework
Oct 2024 – Jan 2025 Córdoba, AR	Career break & upskilling Contributed to improving LibreTickets.com (Next.js) as personal growth.
Oct 2022 – Sep 2024 Mexico City · Remote	Software Engineer · Lapzo by Lernit (B2B LMS) - Full build and migration cycle of Lapzo, an enterprise LMS with 10,000+ users; backend focus. - Load-time optimization, historical reporting, real-time data analysis exported to Excel, and concurrency handling. - High-impact views that still power the sales demos today. NestJS · TypeScript · React · PostgreSQL · KNEX · Hasura

Jun 2022 – Aug 2023
Argentina · Freelance

Tech Mentor · Talently

- 1:1 mentoring of 30+ senior developers for technical interviews and projects; learning roadmap with over 60% placement into the jobs they wanted.

JavaScript · React · Redux · TDD · Functional programming

May 2019 – Sep 2022
Caracas

Web Developer, Junior → Senior · Arturo's (PAICA, C.A.)

- Extended Odoo ERP with JavaScript and Python: fiscal invoicing (.chk with IGTF) for Aloha; removed third-party module costs.
- Mobile/desktop app for nationwide restaurant price and exchange-rate updates: 100% automated, 0% manual handling.
- Official brand website; hybrid help-desk monitoring app for restaurants; responsive migration of SharePoint 2010; bank reports XML→JSON.

TypeScript · React · Angular · Ionic · Firebase · C# · Python · Odoo

Sep 2020 – Nov 2020
Caracas · Contract

Programmer Analyst · Andromeda Ventures

- Migrated a payment gateway from Sails.js to NestJS + TypeScript with ORMs and PostgreSQL stored procedures (RxJS, Redux, SOAP): more readable, scalable code.

NestJS · TypeScript · PostgreSQL

Jan 2018 – Jan 2020
Peru · Remote

Full-stack Developer · Inversiones KED Perú

- Parcel-logistics web app (5 modules) with real-time tracking and back-office; load-time optimization.

PHP · JavaScript · SQL · HTML/CSS

STACK

Core: NestJS, TypeScript, JavaScript, Node.js, PostgreSQL / SQL Server / PL-SQL, KNEX, React, Next.js, tRPC, Firebase, Supabase.

Mobile: React Native (Expo), Ionic.

Additional backend: .NET / C#, Python (Odoo), PHP, Hasura, Stripe API.

Infra & AI: Docker, Git, Ubuntu/WSL, Vercel, basic Kubernetes; Claude Code, Cursor, agents and automation.

EDUCATION

Platzi (2025): SQL & MySQL · Advanced TypeScript.

High-school diploma in Sciences, Guarenas (2017).
Self-taught.

Languages: Spanish native · English B1.

PERSONAL PROJECT

Tormenta Imperial — Godot game built with AI agents. github.com/bryansank/tormenta-imperial
